

WellKid

WellKid's Smart Nutrition for Kids Chewable Tablets and Soft Jellies are a great tasting supplement to your child's diet, providing a comprehensive range of 21 nutrients including Omega-3 to help safeguard the nutritional intake of growing children aged 4-12. Free from artificial colours, gluten, salt and yeast. All Vitabiotics products are developed without testing on animals. Available at Clicks, Dis-Chem, Pick n Pay pharmacies as well as other selected pharmacies or www.vitabiotics.co.za

FREE CABLEWAY RIDES FOR KIDS

Let nature take care of the kids' entertainment this winter. Take the family up Table Mountain Cableway during the chillier months and pay for one adult return ticket, and two kids can ride free. The Cableway Winter Special is valid on weekends and public holidays, every day of the June and September school holidays, offering fun activities for the entire family. It officially kicks off on Sunday May 1, ending on Sunday October 30, 2011. www.tablemountain.net.

MannaBears

'Parent-approved nutrition. Kid-approved taste.' MannaBears supplements are a tasty alternative to today's refined sugars and other 'junk' foods. Formulated with Ambrotose complex (a glyconutrient) which is said to support cellular communication. Includes the phytonutritional goodness of 11 different dehydrated fruits and vegetables; a source of antioxidants; all-natural sweeteners, including cane juice and tapioca syrup; a great-tasting alternative designed to help protect cells from free radical damage. www.mannatech.com

GeoGenius

Brombacher and Associates have created the GeoGenius construction kit. It consists of brightly-coloured, precision-manufactured, sturdy cardboard shapes (elastic bands supplied) for your child to easily assemble an enormously wide range of geometric objects. www.brombacher.co.za

Lok8u

Locate your loved ones anytime, anywhere with this GPS device. The nu•m8+ is the world's first and smallest GPS locator. Lok8u is making use of state-of-the-art positioning technologies and has its own patented cell ID algorithm that gives an approximate location through GSM which is then refined to within 3m when a GPS fix is possible. www.lok8u.com/za
